HAZARDOUS WINTER TRIP.

Argonauts Start Overland For Cape Nome.

gun by a little party which recently sailed from Seattle. The golden beach of Cape Nome is the objective point, and it is hoped by the hardy argonauts that by making the overland trip they will reach there months before the ice locked waters of Bering sea permit of navigation in the spring.

The originator and leader of the expedition is Frank Sanders, a mail carrier. Sanders has collected a large number of letters for the delivery of which he is to receive \$2 each. He has also engaged to guide the party over the trackless wilderness of snow. Although he has never been over the route, he is confident of his ability to make the trip. He has secured the backing of E. O. Lindblom, a Cape Nome magnate, who is one of the party.

The start will be made from Katmai, where they will be landed from

FRANK SANDERS AND HIS ROUTE.

the steamer. The coast line will be followed as closely as possible to avoid the mountainous country, and the drive will be a bleak and lonely one. Travel will be made only in the daytime, the party sleeping in tents at night. Sanders has a light sled about 16 feet long, in which are packed his tent, stove, mail, newspapers and provisions.

RAILROAD TIES

During the year 1899 the railroads ordered 2,475 new locomotives, breaking all previous records.

The Liverpool city council has decided to convert or lay down during 1900 56 miles of electric tramways at a cost of \$250,000.

A year ago locomotives could be contracted for at from \$10,000 to \$15,000, whereas today they cost from \$12,000 to \$15,000. Freight cars that cost \$475 in 1898 cannot be built now for less than \$750.

Genius in Massachusetts has patented a single rail system of railway which has a car slotted through the middle nearly to the top, with wheels in the upper surface of the slot to rest on the rail, the passenger compartments being separated from each other and reached by individual doors.

JOHN BULL.

John Bull is a clumsy thief. He starts out on a perch climbing enterprise and can't even get over the front fence.—Kansas City Times.

John Bull never makes a failure or admits a mistake. He keeps Scotchmen, Welshmen and Irishmen always on hand for that purpose.—Max O'Rell.

It is no wonder that amid the general gloom of England John Morley cries out to his constituents that the war was a "hideous, ghastly blunder."—Boston Globe.

In dealing with the South African crisis England has withdrawn 294 steamers from commercial service. Mr. Chamberlain is frequently reminded in these times of his big mistake in estimating the nature of the task ahead.—St. Louis Globe-Democrat.

"After doctors failed to cure me of pneumonia I used One Minute Cough Cure and three bottles of it cured me. It is also the best remedy on earth for whooping cough. It cured my grandchildren of the worst cases," writes Jno. Barry, Logansport, Pa. It is the only harmless remedy that gives immediate results. Cures coughs, colds, croup and throat and lung troubles. It prevents consumption. Children always like it. Mothers endorse it. Hargis' Pharmacy, John Sheppard and S. Kahn.

Catarrh is Not Incurable

But it can not be cured by sprays, washes and inhaling mixtures which reach only the surface. The disease is in the blood, and can only be reached through the blood. S. S. S. is the only remedy which can have any effect upon Catarrh; it cures the disease permanently and forever rids the system of every trace of the vile complaint.

Miss Jessie Owen, of Montpelier, Ohio, writes: "I was afflicted from infancy with Catarrh, and no one can know the suffering it produces better than I. The sprays and washes prescribed by the doctors relieved me only temporarily, and though I used them constantly for ten years, the disease had a firmer hold than ever. I tried a number of blood remedies, but their mineral ingredients settled in my bones and gave me rheumatism. I was in a lamentable condition, and after exhausting all treatment, was declared incurable. Seeing S. S. S. advertised as a cure for blood diseases, I decided to try it. As soon as my system was under the effect of the medicine, I began to improve, and after taking it for two months I was cured completely. The dreadful disease was eradicated from my system, and I have had no return of it."

Many have been taking local treatment for years, and find themselves worse now than ever. A trial of

S.S.S. For The Blood

will prove it to be the right remedy for Catarrh. It will cure the most obstinate case.

MILITARY INVESTIGATION.

Improper Action of Authorities in Idaho I Quired Into.

WASHINGTON, Feb. 20.—The hearing of witnesses in the investigation of the alleged improper action by the United States military authorities at Warner, Ida., began today before the house committee on military affairs. The room was crowded and among those present were Brigadier General Merriam and Governor Steunenberg of Idaho.

Before beginning the hearing the committee adopted a form of procedure offered by Mr. Hay of Virginia that the witnesses for the complainants be first heard with opportunities for response from the other side.

The first witness, A. M. Fraser, a lawyer of Shoshone county, where the trouble occurred, testified that the civil courts were going business at the time when the martial law is said to have been in operation. Representative Lenz, who conducted the inquiry, explained that this was a groundwork for judging the need of martial law.

Fred C. Robertson, a lawyer of Spokane told of the origin of the labor troubles and the role of Governor Steunenberg proclaimed that a state of insurrection existed and several men were arrested and put in the "bull pen." Mr. Roberts applied for writs of habeas corpus for the men, but the courts held that they would not interfere with the action of the governor, which in effect, the witness said, was a suspension of the writ of habeas corpus.

Testimonial From Judge Gaston.

GREENVILLE, ALA., Aug. 10, 1899.
I take great pleasure in referring to the purity and the merit of Wilkinson's Matchless Mineral Water. This natural mineral water, to my personal knowledge, is taken from a well three miles east of Greenville, in the exact condition in which it is sold. I have seen this water used, with wonderful success, for dyspepsia, indigestion, sore eyes and for various diseases, some and others on men and animals. As a remedy for these troubles, I do not believe its equal exists. It is highly recommended by physicians for a number of diseases.
